

TIBCO Business Works Container Edition Training

DURATION : 8 weeks

MODE OF TRAINING: Online

LEVEL: Advanced

Introduction

TIBCO BusinessWorks Container Edition is an integration product suite that enables you to create services and applications in a visual, model-driven development environment. It provides a drag-and-drop graphical development environment, a graphical data mapper, and a large library of connectors, including plug-ins for Advanced Message Queuing Protocol (AMQP), data conversion, Microsoft Dynamics CRM, Apache Kafka, MongoDB, IBM WebSphere MQ, OData, Amazon Simple Storage Service (Amazon S3), ServiceNow, and Salesforce.

TIBCO BusinessWorks Container Edition leverages the ability and practicality of TIBCO ActiveMatrix BusinessWorks to create cloud-native applications and deploy them to Cloud Foundry or Docker-supported cloud platforms.

We are providing TIBCO BWCE Course with real-time project examples. Live Instructor Led Classes are delivered by experts from the industry. Get real time exposure of TIBCO BWCE.

TIBCO BWCE Course Curriculum

- Introducing TIBCO Business Works Container Edition
- Development Environment
- Application Development
- Testing and Debugging
- Deployment
- Using TIBCO EMS
- Transitioning Applications
- Service Development
- Service Discovery

- Using Shared Modules
- Advanced Debuggings
- Application Monitoring
- Circuit Breakers
- Unit Testing
- Security Considerations and Conclusion
